

Link Your Player Profiles To Your Tennis Account

Missing matches from your Dashboard in Match Centre?

This is likely caused by having multiple playing records in League Manager. You may now link these records together by following the below steps in order to show all of your matches on your Dashboard.

Note: You can only enter match results or confirm/dispute a scorecard (if instructed to do so by your league organiser) by viewing the match directly from your Dashboard.

To link your account:

1. While viewing your Dashboard (You will be automatically redirected to this page when you log into Match Centre), scroll to the bottom of the page and select the **Click Here** button located next to the question *'Is your account incorrectly linked?'*

2. Complete the online form with your personal details, including email and contact number and select 'Search for Profile'.
3. A list of profiles which match your search will appear. If you believe a profile listed reflects your personal details and your team, view the profile using the right hand side icon (highlighted in yellow)
